

Subject: Website Draft

Dear John O'Reilly

Hello John, I hope you are doing well. We are from JDC Design and are just contacting you to update you on the progress of your site and any adjustments or changes you may like to make. We have finished a prototype of the design of the site and have attached it to the bottom of this email. We decided on a color scheme of red and black to help accentuate the look of your cars and give it a more vintage luxury look to the site. There are flames along the edges of the site to make the site more eye-catching and to make use of any excess space on the page. The page so far consists of a home page which will display the company name and the car of the week as you asked and will help navigate to the other pages, The about page will tell the story of John O'Reilly as well as the location and details on where to find your locations the team hopes you can provide some details of your story to help give this page a more personal grounded feel to customers, The final page we have is the contact page which will provide contact details for your company and a form for inquiries as you've requested. We appreciate any feedback regarding the work we've provided so far and hope it's sufficient and meets any of your requirements you may have.

If you have any problems, feel free to contact us at our email address provided Below.

JDCDesign@outlook.ie

Yours sincerely,

The JDC Design team.
